

Garant**ZeroClamp quick-release coupling, Type: 10241****Order data**

Order number	360019 10241
GTIN	4045197415790
Item class	310

Description**Version:**

The zero point clamping of the GARANT ZeroClamp system is an important function for modern production systems, especially in automated production. Thanks to a special contact interface, it ensures precise and reliable zero point repetition accuracy. The pneumatic clamping force of the system holds workpieces securely in the desired position, making it possible to change workpieces quickly and accurately without repositioning. This reduces the set-up effort and increases productivity. The zero point clamping of the GARANT ZeroClamp system is indispensable for efficient production processes. Find out more about the innovative technology from GARANT ZeroClamp and optimise your production.

Connection thread: 1/8 in

Technical description

Connection thread	1/8 in
Series	ZeroClamp
Type of product	Coupling
