Mini bow saw Ergonomic handle

Order data

Order number	581196
GTIN	4045197882370
Item class	58Z

Description

Version:

Compact bow saw with **ergonomic handle** for **non-fatiguing work** in difficult to access places. The dynamic form ensures an **ideal distribution of forces** and promotes better control of the saw blade. Stepless blade tensioning by a knurled nut.

Blade length 200 mm.

The bow saw with its prominent bow frame is characterised by the u-shaped bow which tensions the saw blades. The limitation in depth of cut of hand bow saws is presented by the distance from the blade to the bow. This frame shape permits the use of particularly slim saw blades, which in other frame shapes would be liable to buckle when subjected to cutting movements with the force in alternate senses or other than in the pulling sense. Thanks to the thin hacksaw blades the metal cutting effort required is reduced, because of the small cutting width. Thus this type of saw is the classic standard for hacksaw work in metalworking.

Supplied with:

General-purpose saw blade for metal, aluminium, wood and plastic.

Blade length: 200 mm

Overall length: 310 mm

Technical description

Overall length	310 mm
Blade length	200 mm
Type of product	Coping saw

Accessories

"PUK" saw blade pack, 12 pieces universal (210) 25 TPI
